## ARRIVED AT HAVANA

Consul General Reports the Maine Received With Honors.

## GENERALS LEE AND COGNOSTO

Captain Sigbee Will Use His Own Discretion in Dealing With Events—Comments of the Madrid Press—Spanish Warships Threatened to Visit American Ports.

WASHINGTON, Jan. 26.—A telegram from Consul General Lee at Havana was received at the state department late yesterday afternoon and was carried by Assistant Secretary Day over to the white house for the information of the president. In this telegram General Lee said that the Maine had arrived and had been received with every courtesy. The commanders of the German and Spanish ships of war in the harbor had called upon the commander of the Maine, who had returned their calls; the Spanish ships had fired salutes and all the ceremonies called for by naval etiquette had been observed. In addition the consul general stated that everything was tranquil in Havana.

The department officials have heard nothing officially of any trouble or misunderstanding between Consul General Lee and Secretary Cognosto and attach little importance to the rumors to that effect. It is suggested that the basis may be the report current several days ago that Dr. Cognosto had expressed displeasure because General Lee had declined to state officially that he had no predicted failure for the intromission.

It is said at the navy department that as matters stand there is no call for further instructions at present to Captain Sigbee of the Maine, who is permitted to use his own discretion in dealing with the events of the day, although he has been enjoined to consult freely with Consul General Lee and was also minutely instructed before he arrived at Havana as to the wishes of the secretary of the navy.

## SPANISH COMMENT.

How Madrid Papers View the Maine's Mission.

MADRID, Jan. 26.—The newspapers generally comment upon Secretary Long's explanation of the visit of the United States battleship Maine to Havana, and agree in expressing the opinion that her visit is "unfortunate and calculated to encourage the insurgents."

It is announced that "following Washington's example," the Spanish government will "instruct Spanish warships to visit a few American ports."

The Epoca asks if the dispatch of the Maine to Havana is "dictated as a sop to the jingoes," and adds: "We cannot suppose the American government so naive and badly informed as to imagine that the presence of American warships at Havana will be a cause of satisfaction to Spain or an indication of friendship."

## UNWARRANTED.

Statement Sent Out About Adams Express Company Employees.

NEW YORK, Jan. 26.—In these dispatches on the night of Jan. 18, a statement was made that more than 300 unfaithful employees of the Adams Express company in this city had been discovered in recent peculations amounting to a sum between \$2,000 and \$3,000. This allegation grew out of conversation between a reporter and Attorney Abraham Levy, who gave, as his best impression at that time, the numbers and amounts above stated. The information indicated that peculations were conducted systematically among employees of the express company, and this statement, Mr. Levy feels it is equally fair to himself to say, was not warranted by utterance of his at the time.

## DESTRUCTIVE STORM

St. Louis Is Visited by a Terrific Gale.

## LOSS OF LIFE AND PROPERTY

Several Narrow Escapes—Buildings Unroofed and Telegraph Poles and Wires Broken—Belleville and East St. Louis Also Visited—Men Blown From a Tower in Chicago.

St. Louis, Jan. 26.—A gale of wind that reached the highest velocity of any experienced here since May 27, 1896, when the destruction of life and property was so great, prevailed here yesterday. Its velocity was 66 miles an hour, 14 miles less than during the tornado. Two deaths, one fatal injury and several minor casualties were reported, as well as considerable destruction to property. The dead are:

AUGUST WEINER, aged 37, a carpenter, who was blown from the roof of the Shields school; he lived but 10 minutes after being taken to the city hospital.

THOMAS JOSEPH PERENOS, 4 years old, blown from the roof of a porch at 2300 Franklin avenue and killed.

Mrs. Sarah Lorin of 3810 Lacke avenue, spine crushed and she may die. Injury caused by the blowing down of a fence.

A terrific thunderstorm, accompanied by a heavy fall of hail and rain, struck the city and prevailed for an hour or more. The sky cleared, but it soon became cloudy again, the wind began to rise and was soon blowing at the rate of 63 miles an hour, but 17 miles less than the recorded velocity during the tornado of May, 1896. It was a straight blow from the southwest and the residents of the city, especially in the tornado stricken portion, were seized with consternation, expecting another visitation.

Soon reports began to come into the police stations from all parts of the city indicating that there had been considerable destruction of property. Swinging signs and window panes blew down and were broken, outhouses demolished and fences leveled, telegraph poles and wires broken and in some cases roofs were taken off.

A frame building on Twelfth street between Locust and Washington avenue was blown down, but no injuries have been reported. The east wall of the ruins of the Ravenwood distillery was blown over.

At Nineteenth and Market streets the roof of a 2-story building was blown down. There were several thrilling escapes, but so far as can be learned, no one was injured.

At the electric power house which supplies East St. Louis with light, the large smoke stack was blown down, carrying with it the main wires of the city circuits.

In Belleville, Ill., many large smokestacks and chimneys were blown down and there were numerous narrow escapes from death there and in East St. Louis. The damage along the river was comparatively slight as there were but few steamers in the harbor and these were safely tied to the shore.

## BLOWN OFF A TOWER.

CHICAGO, Jan. 26.—A blinding snow storm which raged all day yesterday did considerable damage in the city, made trouble for the streetcar companies and the railroads and caused the loss of one life. Carlos Munchy, a laborer, was repairing the top of a 90-foot tower at the plant of the Froquois Furnace company, when, owing to the wind, which was blowing at the rate of 60 miles an hour, he lost his hold and fell to the ground. He was instantly killed, nearly every bone in his body being broken.

## LUETGERT TRIAL.

Sadden Ending of the Cross Examination of Defendant.

CHICAGO, Jan. 26.—Adolph L. Luetgert has completed his personal testimony. He stepped down from the witness stand yesterday afternoon when State Attorney Donegan brought the cross examination to an abrupt close. The big defendant had anticipated another day under fire and the sharp "that's all" of the prosecutor surprised him.

Details of Luetgert's life, his morals, motives and actions were entered into, but few of them had any direct bearings upon the actual disappearance of Mrs. Luetgert. Asked whether he had or not employed detectives to search for his wife Luetgert said that he had not and then, after some controversy between lawyers regarding the production in court of certain books which the state claimed would show dishonest transactions on the part of Luetgert the defendant was excused.

## ONE DOLLAR WHEAT.

Letter Crowd Sent the Chicago Market Up 5 Cents in a Few Minutes.

CHICAGO, Jan. 26.—January wheat sold at 1/2 yesterday. The price was bid up 5 cents in a few minutes by brokers acting for the letter crowd, who, it was believed, took this method of advancing the price of May. January closed at 97 1/2 cents, an advance of 2 1/2 cents. May closed at 1/2 cents advance, after many erratic fluctuations.

## Terrible Shooting Affray.

VICTORIA, B. C., Jan. 26.—On the Forest plantation five miles below here Charles Beard, Jr., white, aged 18, was shot through the stomach and fatally wounded by a negro. While lying mortally wounded Beard shot and killed his assailant and another negro. The trouble grew out of an assault upon Charles Beard, Sr., father of the boy.

## May Get a New Trial.

LONDON, Jan. 26.—The Paris correspondent of the Daily News is "convinced that the agitation will eventually lead to a new trial for Dreyfus."

## STOCKGROWERS.

First Session of the National Association Convened in Denver.

DENVER, Jan. 26.—The first session of the National Stockgrowers' association was called to order late yesterday. There were present about 1,000 delegates representing 21 states and territories of the west, northwest and southwest. The chairman said that the years of depression to which the cattle industry had been subjected caused a loss in that one branch of business of hundreds of millions, but there now appeared a brighter prospect for stockgrowing in its various branches, and this convention was called to consider the new conditions. Governor Albin Adams welcomed the delegation in the name of the state.

## KLONDIKE SUPPLIES.

Canadian Government Has Consented to Admit Them Free.

WASHINGTON, Jan. 26.—The war department has been in further correspondence with Canadian officials at Ottawa with the gratifying result that the Canadian government has consented to admit free of restrictions all supplies brought into the Klondike region by the United States government relief expedition. The free admission of supplies is strictly limited to the government expeditions, but there is no inhibition upon the scale of the food supplies taken in to such of the miners as can pay for them.

## RECEIVING GOLD.

Sent by Registered Mail From California in \$1,000 Packages.

NEW YORK, Jan. 26.—Some of the banks are receiving large amounts of gold from California by registered mail as a result of the importations of gold from Australia at San Francisco. The National Park bank at San Francisco and the American Exchange National bank received about \$500,000 each in that way during the past week. The gold comes in rolls of \$20 pieces, containing \$1,000 each. Besides being registered, the mail packages are insured to secure the remitters against loss.

## Miss Swope's Death.

SEYMOUR, Ind., Jan. 26.—Miss Hattie Swope, a highly accomplished young lady of this city, aged about 25, and a sister of Representative Allen Swope, is dead from the effects of having a surgical operation performed for a tumor. She stood the operation bravely, but had a relapse and died. She was buried in Cave Hill cemetery in Louisville today.

## BOGUS MASON.

George Fleming Makes a Confession of His Crooked Dealings.

TACOMA, Jan. 26.—George Fleming, convicted and sent to the state penitentiary at Walla Walla to serve two and a half years for obtaining money under false pretenses, has made a confession, which, if it were not corroborated by more than 100 letters from different Masonic lodges in the United States and other countries, would be received with incredulity. Fleming is a bogus Mason, yet he has been complimented by past grand masters on his knowledge of Masonry. He has lived for years upon money borrowed from Masons, the amounts varying from \$10 to several hundred, or, as he told ex-Sheriff Van Devanter, "according to the circumstances and the times."

## PENSION SWINDLE.

Henry White, Who Has Operated For Years, at Last Captured.

GEORGETOWN, O., Jan. 26.—Government officials have succeeded in arresting an alleged swindler, who gave his name as Henry White. For years has traveled over the country representing himself as a pension agent. After selecting his victim he would pretend to investigate the claim, it is said, and invariably found a defect of some kind for the pensioners. He would then straighten it. He was arrested while at Mount Oreb and brought to this place and lodged in jail to await the arrival of a United States marshal from Cincinnati.

## COWHIDE BY A WOMAN.

Accused a Harrodsburg (Ky.) Storekeeper of Sprinkling Her Boy.

HARRODSBURG, Ky., Jan. 26.—Joseph Booth, a well known citizen, was cowhided on the street here by Mrs. George Smith. She accused Booth of purposely turning the hose on her little son as he passed his place of business, but in court it was proved that the sprinkling was by accident and she was fined \$20 and costs.

At the City hotel some time ago Mrs. Smith shot a prominent young farmer named Dean in the thigh, alleging that he had insulted her. The matter never came to trial.

## DEMANDED \$5,000.

Young Man Threatens to Kill Judge Madill at St. Louis.

ST. LOUIS, Jan. 26.—A tall, thin, well dressed young man walked into the private office of Judge Madill, president of the Union Trust company, and, pointing a revolver at the gray-haired financier's head, demanded \$5,000 in cash, threatening to kill him if the money was not paid. Judge Madill engaged the man in conversation and detectives arrested and handcuffed him. When searched a small bottle of nitroglycerin was found in his pocket.

## Police Blackmail.

CHICAGO, Jan. 26.—The committee from the state senate, investigating the Chicago police force, heard testimony yesterday tending to show that a regular police system of blackmail on the Chinese and white opium joints exists.

The apportionment of delegates to the several counties of said district is as follows:

Bartholomew.....16  
Brown.....4  
Dearborn.....14

Jefferson.....18  
Jennings.....10  
Ohio.....4  
Ripley.....13  
Switzerland.....8

Total.....114

The county committee of each county will apportion the delegates to the various precincts, wards or townships, and give notice of the place and hour of such meetings, the date of which is January 22, 1898. The business of the meeting is to select one delegate and one alternate to the district meeting, and one member of the County Central committee.

Notice of such meetings shall be given by publication in the republican press of the county at least ten days before such meeting; and if there be no paper, then by posting five notices in each precinct.

The county committees will meet on January 29, 1898, at 2:00 o'clock p. m. to organize by electing chairmen and vice-chairmen, and provide for the selection of a secretary and a treasurer.

On behalf of the committee, the republicans of Decatur county, and the citizens of Greensburg, I extend to all a hearty invitation to be present at the district meeting.

The call and business being made by order of the State Central Committee.

**JAMES E. CASKREY,**  
District Committeeman Fourth District.

**CALL FOR REPUBLICAN PRIMARY.**

The republicans of the city of Seymour, Indiana, will hold a primary election on Tuesday the 8th day of March. Polls will be opened at one o'clock p. m., and will close promptly at 8 o'clock p. m. There will be one voting place in each ward, place to be designated later. The following officers will be voted for: Mayor, marshal, city clerk, city treasurer, city judge and one councilman from each ward of the city. All persons wishing to be candidates for any of the offices must notify the city chairman not later than the last day of March, 1898.

By order of the City Committee.  
**W. H. BURKLEY, Chairman.**  
**C. A. DAY, Secy.**

**Seventh Precinct Republicans.**

The republicans of the seventh precinct, Jackson township, will meet in mass convention tomorrow (Thursday) afternoon at 2 o'clock, at E. O. Kruger's shop on Brown street in the city of Seymour, to choose a committeeman in place of Uriah White who asks to be relieved.

**W. E. KIMMEL, Tr. Chrm'n.**

The members of the county central committee will meet at Browns town Saturday to elect a chairman.

It is discouraging to some of the high salaried officers now occupying the court house to hear old time and influential democrats declare that a change would be a good thing for the party as well as the people.

**SENATOR Teller** shed tears in 1896 when the republican national convention overwhelming turned down his 16 to 1 proposition, but in the senate yesterday he lost his temper and talked real saucy to some of his opposing colleagues.

**"TAXPAYER" SHOULD REPORT HERE**  
Some one signing himself "A Taxpayer" has written D. H. McAbee, the state factory inspector, that "in the factories, mills and other branches of business in the city of Seymour" a great many children under the age of 14 years are regularly employed. Truant Officer McCann says he has no knowledge of such employment though he has made careful inquiry, but if "Taxpayer," or any one else will report such cases, if there be any in Seymour, they will be given prompt attention. "Taxpayer" should reveal his identity and report what he knows here at home.

This is not an off year for the republicans as some of the Bryan democrats are trying to make themselves believe.

The annual meeting of the Indiana Republican Editorial Association will be held on Thursday evening and Friday of this week. An excellent program has been arranged.

JUDGE LEWIS E. McCOMAS has been chosen by the Maryland legislature to succeed Arthur P. Gorman in the United States Senate. This is one of the leading democratic tricksters and shrewd politicians succeeded by a republican, a one, two whose ability has been tested.

The republicans of the Seventh precinct of Jackson township will find a call in this issue for them to meet tomorrow (Thursday) afternoon at 2 o'clock at E. O. Kruger's shop to select a committeeman in the place of Uriah White who asks to be relieved. They should respond promptly. A close and compact organization is what we want as soon as possible.

There is a report out that some very embarrassing differences have arisen between a coterie of local democratic bosses and a number of the rank and file of the party, some of whom want to hold office. The report is to the effect that the bosses want to dictate the nominations for city offices, and take several aspirants out of the race. This arrangement is satisfactory to only one candidate for each office and he is the one whose name is on the bosses' slate. The others are all dissatisfied and have been talking too much to suit the bosses. It is said that some real for sure 16 to 1 democrats have promised to make things lively for those who are "fixing things" to suit themselves. They must have a "test of strength" or else there is apt to be some democratic trouble right here at home.

**MAKING ARTIFICIAL ICE.**

How the Plants Are Constructed and Operated in Philadelphia.

Artificial cold or ice may be most readily produced by the evaporation of a more or less volatile liquid. In the first machines constructed this liquid was water. One-tenth of the amount of water used was converted into ice, but as it was necessary to maintain a vacuum in the apparatus its perfect working was a difficult problem. A more readily volatile liquid, therefore, had to be substituted, such as liquefied sulphurous acid and liquefied ammonia. Being gaseous at ordinary temperatures, they are very suitable substances for this purpose. The ammonia ice machine is the one in most general use—in fact, it finds exclusive application in this city. This liquefied ammonia is allowed to expand in coils of pipe which are placed in tanks filled with brine. The temperature of the brine is thus reduced to a point below the freezing point of water—that is, to 14-18 degrees F.

In this refrigerated brine are placed galvanized iron tanks having the shape of the large cakes of ice which one is accustomed to see in the wagons that pass through our city streets. After a period of 48-50 hours this can of water is converted into solid ice. The can is hoisted out of the brine, warmed with hot water, which allows the cake to slip out upon a shoot that runs into the storage rooms. The gaseous ammonia in the pipes can be used over and over again, a large compression engine being a part of the plant, which reduces the expense of the process. From this description it should be plain that there can be no taint of ammonia to give a taste to the ice.

The plants usually employ distilled or artesian water, so that the ice is of the best quality. Whatever impurities the water contains are collected in the white streak found in the center of each cake. The pure water separates from the impure and freezes first. Even ten years ago the demand for ice was supplied from natural sources, the harvests from our own Pennsylvania rivers, which were stored every winter in great houses on the shores of the streams, being supplemented by shipments throughout the summer from Maine. There are now in Philadelphia 16 ice-making plants, some of which yield over 100 tons per day each, and the artificial product for several years has been a serious competitor of the natural article.—Manufacturer.

Logansport People Becoming Skeptical About Nickum's Light.

**INSANE OVER HIS PENSION.**  
Pierman Wanted For Brutal Assault on an Aged Couple Near Veedersburg Captured—War Between Grocers and Department Stores at Danville—Blaze at Turner.

LOGANSPORT, Ind., Jan. 26.—The long deferred public exhibition of S. B. Nickum's perpetual light is indefinite, and the curious are simply waiting. Confidence in the Nickum light is sadly shaken, and nothing will restore it but a practical demonstration. The inventor continues to maintain the secrecy which, coupled with his remarkable claims, has given him worldwide notoriety.

**TRADE WAR.**  
Grocers and a Department Store Waging a Battle at Danville.

DANVILLE, Ind., Jan. 26.—A cut price war is on here in flour between Joseph Schwartz's department store and the grocers. Schwartz was recently in the clothing business and decided to open a department store. Last Saturday he had an opening in groceries and marked flour from 70 cents to 60 cents a sack for 25 pounds. The grocers made it 55 cents. Both sides continued to cut until now flour is selling for 32 cents, with indication of going still lower. Schwartz is threatening to put in a butcher shop. The fight is being watched with interest by those who favor and those opposed to department stores.

**PIERMAN RECAPTURED.**  
Wanted For a Brutal Assault on Enoch Thompson and Wife.

VEEDERSBURG, Ind., Jan. 26.—Samuel Pierman was arrested yesterday at Brazil on the charge of burglarizing the home of Enoch Thompson and wife, an old couple near here. It is alleged that Pierman and Alan Curtis went to the Thompson home and tortured the old couple into surrendering their money. They then locked them in a closet, after knocking down Mrs. Thompson with a blow in the face. Curtis was arrested at Danville, Ills., and Pierman was also arrested a few weeks ago while working in a mine, but gave the officers the slip.

**MAILCARRIER'S TROUBLES.**  
Surrounded by Water For Two Days Without Food or Shelter.

ELIZABETH, Ind., Jan. 26.—Mailcarrier Elbert, whose route is between this place and New Albany, missing since Saturday, arrived at New Albany yesterday. It was thought he was drowned. He had forded one creek and at the next one discovered it was unfordable. He then retraced his steps only to find the stream he had first crossed was in a similar condition. He camped on the island for two days and nights without food or shelter. He is at his home here suffering from the exposure.

**Venturesome Horse.**  
TASWELL, Ind., Jan. 26.—A horse belonging to Charles Henry escaped from its owner and ran over the Miller trestle and back again before it was caught. The trestle is 90 feet high and 885 feet long.

**Mail Trains Allowed to Run.**

**ONCE THEY WERE MEDIUMS.**  
Now They Expiate Their Sins by Tossing Balls of Blue Fire.

Close by the Northwestern tracks at Leavitt street is the home of the "juggling sisters." They were two prestidigitators in their days of life, so runs the tradition, and now they toss balls of blue fire about as the juggler does eggs, cannon balls and the like. Their pet amusement is to stand on their heads and toss the balls as if they were standing aloft. The force of gravity seems to be reversed for their benefit, for they "toss" the balls of fire down, and the little flames "fall" up. All this is set down just as James MacCourtney, the oldest settler in the neighborhood, tells it. He said the other day:

"Them broad windies over there on the north side of the old building is the place where the sisters comes to show themselves. The year of the World's fair I counted up their performances, an they come every 56 days. The reason for that is somethin I could never guess, but some smart young chap here figured out that it was always in the dark of the moon. I've noticed since that there never was no moonlight when they got up there in the windies.

"What's the cause of their hauntin the old place? Why, sir, the story's so old there can't no truth nor lie be made out on it. There's no man in these diggin's longer'n I be, an I ken the story only by hearsay, so to speak. I heard it from my granddaddy, an he said he heard it when he was a young man comin here. That mus' 'a' ben in the thirties. Onnyways he said that the two sisters were persidigitators. It seems like they give a performance in the house, which was new then in course, an the pair of them agreed ter be locked up in a box that was to be sealed an fastened, an then they was to get out without breakin in the seals. Well, they was locked up, but they couldn't get out, an purty soon they foun themselves so short of breath they couldn't holler loud enough to be heard. In course they was in a room away from the other people, so's the common folk couldn't see how the trick was turned. When they couldn't holler, they tried rappin, an the others only thought they was a-workin out of the box an so didn't pay attention. After an hour or so the other peoples got nervous an went in an opened the box, an there was the two sisters, cold dead. They buried 'em together in the box in the yard back of the house, an that's why they juggle the fire balls upside down like."—Chicago Chronicle.

**Why He Left the Stage.**  
There is in Philadelphia a man who abandoned the theatrical profession because he could not lift Fanny Davenport. He was a member of one of the local stock companies about 20 years ago, when Miss Davenport came to Philadelphia with one of the men of her company sick. She applied to the manager of the theater in which the young man referred to was employed for some one to take the sick man's place, and as the young actor was not in the cast of the play then running his services were loaned to Miss Davenport. He was cast for the part of Caius Lucius in "Cymbeline," and the business of the part required that he should take Miss Davenport in his arms and carry her off the stage. The lady weighed considerably more than he did, and when he attempted to pick her up he found that his strength was not equal to the task. His struggles caused the audience to laugh, and that spoiled a good scene. He was so humiliated that he left the profession after that engagement.—Philadelphia Inquirer.

These Reminiscences will be illustrated with many rare and Unpublished War Photographs from the Government collection, which now contains over 8,000 negatives of almost priceless value.

The Christmas McClure's contained a complete Short Story by Rudyard Kipling entitled "The Tomb of His Ancestors," the tale of a clouded Tigeron officer in the Indian army, and a rebellious tribe. **THE AMERICAN MONTHLY REVIEW OF REVIEWS**

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable"; "is simply invaluable"; "is a generous library in itself"; "is a historical cyclopedia of the world"; "the best means of aid for a busy man"; "the best periodical of the kind we have ever had"; "a triumph of editorial genius"; "the world under a field-glass," etc., etc.

## Robbed the Grave.

A startling incident of which Mr. John Oliver, of Philadelphia, was the subject is narrated by him as follows: I was in a most dreadful condition. My skin was almost yellow, eyes, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately a friend advised trying "Electric Bitters" and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life and robbed the grave of another victim. No one should fail to try them. Only 50 cents per bottle at W. F. Peter, druggist.

## Wanted.

A car load of horses and mules from 4 to 8 years old. They must be sound and in good flesh. I will pay the highest market price. I will be at Hopewell's livery stable, Seymour, Ind., on Friday and Saturday, Jan. 28 and 29.

## In Olden Times

People overlooked the importance of permanently beneficial effects and were satisfied with transient action; but now that it is generally known that Syrup of Figs will permanently overcome habitual constipation, well informed people will not buy other laxatives, which act for a time, but finally injure the system. Buy the genuine, made by the California Fig Syrup Co.

SECRETARY.

## Indorsed by All.

Not only the press but the pastors of the country as well speak of "The Old Homestead" in the highest terms. "It is one of the most refined and pleasing comedies ever written, dealing with life in all its phases in country and city. The library association deserve much credit in securing the right to produce this play. Much time and pains are being given to make it a success in every way. All the characters have been taken by persons capable of sustaining them in a creditable manner. Let this be the event of the year, fill the house to its utmost capacity and help the library along and at the same time enjoy a meritorious performance."

## The Discovery of the Day.

Aug. J. Bogel, the leading druggist of Shreveport, La., says: "Dr. King's Discovery is the only that cures my cough, and it is the best seller I have." J. F. Campbell, merchant of Safford, Ariz., writes: "Dr. King's New Discovery is all that is claimed for it; it never fails, and is a sure cure for Consumption, Coughs and Colds. I cannot say enough for its merits. Dr. King's New Discovery for Consumption, Coughs and Colds is not an experiment. It has been tried for a quarter of a century and today stands at the head. It never disappoints. Free trial bottles at W. F. Peter's drug store."

## RAILROAD RUMBLINGS.

A large number of men came here last night to put in a long side track for the Southern Indiana line from the depot west.

Frank Barkley, late of the B. & O. S. W., is now employed on the Southern Pacific with headquarters at Tucson, Arizona, and is doing well.

Edward and Everett Fraze, of the Alabama Great Southern, Birmingham, Ala., came here last night to visit their many friends.

Alex Toms went east on engine 231 last night and crashed into a large tree blown across the track two miles on and the pilot was knocked off. This was lucky as it saved No. 3 from running into the tree which would have resulted in serious damage.

Mrs. J. Watson, 1022 Arizona St. Philadelphia, Pa., says: "I think Dr. Bull's cough syrup is a splendid remedy. I had to cough night and day and one bottle relieved me wonderfully."

## CHURCH NOTES.

Rev. J. L. Shroyer, of the Seymour circuit M. E. church began a protracted meeting at Cortland Monday night with large audiences and an increasing interest.

There will be a missionary conference at the Baptist church Sunday Feb 6. Rev. J. S. Boyden, of Kalamazoo, Mich. and Rev. E. G. Stucker, of Chicago will be present and conduct the meeting.

There was a large attendance at the Christian church last night. Interest a growing great and people are thinking seriously upon the great question, "What Shall I Do to be Saved?"

Elder Joseph Franklin went to Bedford yesterday but is expected to return today and continue the meetings at the Christian church over next Lord's day. His subject tonight will be "Faith as a Grain of Mustard Seed."

The interest in the revival services at the Methodist church is on the increase. Many testimonies were given last night and the power of Christ to save was manifest in many hearts. Come to night. Come to work for God. The salvation of many souls depend upon our efforts at this time.

## Deafness Cannot be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by all druggists, 75c.

## ARRIVED AT HAVANA

Consul General Reports the Maine Received With Honors.

## GENERALS LEE AND COGNOSTO

Captain Sigbee Will Use His Own Discretion in Dealing With Events—Comments of the Madrid Press—Spanish Warships Threatened to Visit American Ports.

WASHINGTON, Jan. 26.—A telegram from Consul General Lee at Havana was received at the state department late yesterday afternoon and was carried by Assistant Secretary Day over to the white house for the information of the president. In this telegram General Lee said that the Maine had arrived and had been received with every courtesy. The commanders of the German and Spanish ships of war in the harbor had called upon the commander of the Maine, who had returned their calls; the Spanish vessels had fired salutes and all the ceremonies called for by naval etiquette had been observed. In addition the consul general stated that everything was tranquil in Havana.

The department officials have heard nothing officially of any trouble or misunderstanding between Consul General Lee and Secretary General Vergara and attach little importance to the rumors to that effect. It is suggested that the basis may be the report current several days ago that Dr. Cognosto had expressed displeasure because General Lee had declined to state officially that he had not predicted failure for the autonomy plan.

It is said at the navy department that as matters stand there is no call for further instructions at present to Captain Sigbee of the Maine, who is permitted to use his own discretion in dealing with the events of the day, although he has been enjoined to consult freely with Consul General Lee and was also minutely instructed before he arrived at Havana as to the wishes of the secretary of the navy.

**SPANISH COMMENT.**  
How Madrid Papers View the Maine's Mission.

MADRID, Jan. 26.—The newspapers generally comment upon Secretary Long's explanation of the visit of the United States battleship Maine to Havana, and agree in expressing the opinion that her visit is "unfortunate and calculated to encourage the insurgents."

It is announced that "following Washington's example," the Spanish government will "instruct Spanish warships to visit a few American ports."

The Epoca asks if the dispatch of the Maine to Havana is "dictated as a sop to the jingoes," and adds: "We cannot suppose the American government so naive and badly informed as to imagine that the presence of American warships at Havana will be a cause of friendship to Spain or an indication of friendship."

**Insurgent Camps Destroyed.**  
HAVANA, Jan. 26.—The Spanish forces, it is announced, have destroyed the camp of the insurgent leader, Juan Delgado, near Managua. The camp of the insurgent leader, Romero, is also reported to have been destroyed. In Spanish circles it is said that a government force, in reconnoitering near Aguadate and Tapaste, this province, has been engaged with the insurgent general, Amargura, who was in command of 130 cavalrymen. The Spaniards are said to have killed many of the insurgents and to have captured the correspondence of Amargura.

## UNWARRANTED.

Statement Sent Out About Adams Express Company Employees.  
NEW YORK, Jan. 26.—In these dispatches on the night of Jan. 18, a statement was made that more than 300 unfaithful employees of the Adams Express company in this city had been discovered in recent peculations amounting to a sum between \$2,000 and \$3,000. This allegation grew out of conversation between a reporter and Attorney Abraham Levy, who gave, as his best impression at that time, the numbers and amounts above stated. The information indicated that peculations were conducted systematically among employees of the express company, and this statement, Mr. Levy feels it is equally fair to himself to say, was not warranted by attention of his at the time.

## MRS. KETCHAM SUE.

Her Former Attorney, D. C. Hanson, Thinks His Services Worth \$20,000.  
CHICAGO, Jan. 26.—Mrs. Minnie Wallace Ketcham, widow of the late well known club man, John B. Ketcham, has been sued by her former attorney, D. C. Hanson, for \$20,000 to which she alleges he is entitled as recompense for services. Hanson asserts he attended to all legal matters arising from the death of Mr. Ketcham, drew up the will in dispute at the present time and made all preparations for the hearing of the contest in behalf of Mrs. Ketcham.

## MRS. FAIRBANKS.

Wife of Indiana's Junior Senator Seriously Ill.

WASHINGTON, Jan. 26.—Mrs. Senator Charles W. Fairbanks of Indiana is lying very ill at her home in this city. Last Friday she complained of a recurrence of the effects of the grip, but her case was not considered serious until Tuesday, when she had a fainting spell, falling to the floor. Word was sent to the senator at the senate chamber, who hurried to her bedside. Later he telegraphed for Dr. Spink of Indianapolis, who was Mrs. Fairbanks' physician in that city. The doctor arrived yesterday and last evening reported Mrs. Fairbanks as resting easily. The lady's sudden illness interferes with her social plans. She had arranged for a dinner in honor of ex-President and Mrs. Harrison, and had secured their acceptance of the invitation. The family physician, however, has notified the senator that the condition of his wife's health will not permit of her active participation in society events for some time.

It is thought that Mrs. Peters' son Charles, aged 12 years, perished, but there are reports that he was saved and taken into the country by relatives.

The loss was \$225,000; insurance, \$135,000.

## BECOMING WEARY.

Said That Certain Senators Are Anxious to Close Debby Investigation.

COLUMBIA, O., Jan. 26.—The senate committee investigating the alleged attempt to bribe Representative Otis in the recent senatorial election did not hold a session yesterday. The committee adjourned subject to the call of the chairman, and it is not settled positively when the committee will meet again. There is a probability, however, that the committee may meet tonight. Senators Finch and Long are said to be getting weary of the voluminous testimony bearing upon unimportant details and are anxious to bring out the alleged connecting links in the story and close up the investigation.

## DESTRUCTIVE STORM

St. Louis Is Visited by a Terrific Gale.

## LOSS OF LIFE AND PROPERTY

Several Narrow Escapes—Buildings Unroofed and Telegraph Poles and Wires Broken—Belleville and East St. Louis Also Visited—Men Blown From a Tower in Chicago.

ST. LOUIS, Jan. 26.—A gale of wind that reached the highest velocity of any experienced here since May 27, 1896, when the destruction of life and property was so great, prevailed here yesterday. Its velocity was 66 miles an hour, 14 miles less than during the tornado. Two deaths, one fatal injury and several minor casualties were reported, as well as considerable destruction to property. The dead are:

AUGUST WYMEYER, aged 37, a carpenter, who was blown from the roof of the Shields school; he lived but 10 minutes after being taken to the city hospital.

THOMAS JOSEPH PETERSON, 4 years old, blown from the roof of a porch at 2300 Franklin avenue and killed.

Mrs. Sarah Lorin of 3810 Laclede avenue, spine crushed and she may die. Injury caused by the blowing down of a fence.

A terrific thunderstorm, accompanied by a heavy fall of hail and rain, struck the city and prevailed for an hour or more. The sky cleared, but it soon became cloudy again, the wind began to rise and was soon blowing at the rate of 63 miles an hour, but 17 miles less than the recorded velocity during the tornado of May, 1896. It was a straight blow from the southwest and the residents of the city, especially in the tornado stricken portion, were seized with consternation, expecting another visitation.

Soon reports began to come into the police stations from all parts of the city indicating that there had been considerable destruction of property. Swinging signs and window panes blew down and were broken, outhouses demolished and fences leveled, telegraph poles and wires broken and in some cases roofs were taken off.

A frame building on Twelfth street between Locust and Washington avenue was blown down, but no injuries have been reported. The east wall of the ruins of the Ravenwood distillery was blown over.

At Nineteenth and Market streets the roof of a 2-story building was blown down. There were several thrilling escapes, but so far as can be learned, no one was injured.

At the electric power house which supplies East St. Louis with light, the large smoke stack was blown down, carrying with it the main wires of the city circuits.

In Belleville, Ill., many large smokestacks and chimneys were blown down and there were numerous narrow escapes from death there and in East St. Louis. The damage along the river was comparatively slight as there were but few steamers in the harbor and these were safely tied to the shore.

## Blown Off a Tower.

CHICAGO, Jan. 26.—A blinding snow storm which raged all day yesterday did considerable damage in the city, made trouble for the streetcar companies and the railroads and caused the loss of one life. Carlos Manchy, a laborer, was repairing the top of a 90-foot tower at the plant of the Iroquois Furnace company, when, owing to the wind, which was blowing at the rate of 60 miles an hour, he lost his hold and fell to the ground. He was instantly killed, nearly every bone in his body being broken.

## LUETGERT TRIAL.

Sudden Ending of the Cross Examination of Defendant.

CHICAGO, Jan. 26.—Adolph L. Luetgert has completed his personal testimony. He stepped down from the witness stand yesterday afternoon when State Attorney Deenen brought this cross examination to an abrupt close. The big defendant had anticipated another day under fire and the sharp "that's all" of the prosecutor surprised him.

Details of Luetgert's life, his morals, motives and actions were entered into, but few of them had any direct bearing upon the actual disappearance of Mrs. Luetgert. Asked whether he had or not employed detectives to search for his wife Luetgert said that he had not and then, after some controversy between lawyers regarding the production in court of certain books which the state claimed would show dishonest transactions on the part of Luetgert the defendant was excused.

## BOGUS MASON.

George Fleming Makes a Confession of His Crooked Dealings.

TACOMA, Jan. 26.—George Fleming, convicted and sent to the state penitentiary at Walla Walla to serve two and a half years for obtaining money under false pretenses, has made a confession, which, if it were not corroborated by more than 100 letters from different Masonic lodges in the United States and other countries, would be received with incredulity. Fleming is a bogus Mason, yet he has been complimented by past and present masters on his knowledge of Masonry. He has lived for years upon money borrowed from Masons, the amounts varying from \$10 to several hundred, or, as he told ex-Sheriff Van Deventer, "according to the circumstances and the times."

"The amount of money thus obtained will probably reach \$20,000. He has traveled all over the world and never spent a cent for railroad or other transportation. He was known in Mississippi as Professor Wiley, in Kentucky as Alexander Craig, in Pennsylvania as William Ball, in Cincinnati and Chicago as Charles Wilson and in St. Louis as William Mays. In Paris he claims to have dined with the prince of Wales and Sir Dudley Ward. He borrowed \$150 from the prince on the strength of Masonry. In Madrid he worked Hannis Taylor for free transportation to the rock of Gibraltar by the way of Cadiz.

## CHURCH NOTES.

Rev. J. L. Shroyer, of the Seymour circuit M. E. church began a protracted meeting at Cortland Monday night with large audiences and an increasing interest.

There will be a missionary conference at the Baptist church Sunday Feb 6. Rev. J. S. Boyden, of Kalamazoo, Mich., and Rev. E. G. Stucker, of Chicago will be present and conduct the meeting.

There was a large attendance at the Christian church last night. Interest is growing great and people are thinking seriously upon the great question, "What Shall I do to be Saved?"

Elder Joseph Franklin went to Bedford yesterday but is expected to return today and continue the meetings at the Christian church over next Lord's day. His subject tonight will be "Faith as a Grain of Mustard Seed."

The interest in the revival services at the Methodist church is on the increase. Many testimonies were given last night and the power of Christ to save was manifest in many hearts. Come to night. Come to work for God. The salvation of many souls depend upon our efforts at this time.

## Deafness Cannot be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by all druggists, 75c.

### ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways.

The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

### CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often by mistake, attributed to some fault of the bladder.

The error is easily made and may be as easily avoided. To find out correctly, let your urine aside or twenty-four hours, sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention the REPUBLICAN and send your address to Dr. Kilmer & Co., Binghamton, N. Y. ## ARRIVED AT HAVANA

Consul General Reports the Maine Received With Honors.

## GENERALS LEE AND COGNOSTO

Captain Sigbee Will Use His Own Discretion in Dealing With Events—Comments of the Madrid Press—Spanish Warships Threatened to Visit American Ports.

WASHINGTON, Jan. 26.—A telegram from Consul General Lee at Havana was received at the state department yesterday afternoon and was carried by Assistant Secretary Day over to the white house for the information of the president. In this telegram General Lee said that the Maine had arrived and had been received with every courtesy. The commanders of the German and Spanish ships of war in the harbor had called upon the commander of the Maine, who had returned their calls; the Spanish ships had fired salutes and all the ceremonies called for by naval etiquette had been observed. In addition the consul general stated that everything was tranquil in Havana.

The department officials have heard nothing officially of any trouble or misunderstanding between Consul General Lee and Secretary General Cognosto and attach little importance to the rumors to that effect. It is suggested that the basis may be the report current several days ago that Dr. Cognosto had expressed displeasure because General Lee had declined to state officially that he had no predicted failure for the autonomy plan.

It is said at the navy department that as matters stand there is no call for further instructions at present to Captain Sigbee of the Maine, who is permitted to use his own discretion in dealing with the events of the day, although he has been enjoined to consult freely with Consul General Lee and was also minutely instructed before he arrived at Havana as to the wishes of the secretary of the navy.

## SPANISH COMMENT.

How Madrid Papers View the Maine's Mission.

MADRID, Jan. 26.—The newspapers generally comment upon Secretary Long's explanation of the visit of the United States battleship Maine to Havana, and agree in expressing the opinion that her visit is "inopportune and calculated to excite the passions."

It is announced that following Washington's example, the Spanish government will "instruct Spanish warships to visit a few American ports."

The Epoca asks if the dispatch of the Maine to Havana is "dictated as a sop to the jingoists," and adds: "We cannot suppose the American government so naive and badly informed as to imagine that the presence of American warships at Havana will be a cause of satisfaction to Spain or an indication of friendship."

## Letters From General Garcia.

WASHINGTON, Jan. 26.—Senator Quisenberry, representative of the Cuban junta here, received letters from Cuba detailing events in the interior up to the 20th of December. Among others was a letter from General Chiquito Garcia reporting the safe landing and reception by the insurgents of the latest expedition from the United States. These supplies, particularly the ammunition for the dynamite guns, General Garcia said were sufficient to enable them to carry on a campaign in the eastern division for many months even should no other supplies be landed.

## Insurgent Camps Destroyed.

HAVANA, Jan. 26.—The Spanish forces, it is announced, have destroyed the camp of the insurgent leader, Juan Delgado, near Managua. The camp of the insurgent leader, Romero, is also reported to have been destroyed. In Spanish circles it is said that a government force, in reconquering near Aguate and Tapaste, this province, has been engaged with the insurgent general, Aranguren, who was in command of 180 cavalrymen. The Spaniards are said to have killed many of the insurgents and to have captured the correspondence of Aranguren.

## UNWARRANTED.

Statement Sent Out About Adams Express Company Employees.

NEW YORK, Jan. 26.—In these dispatches on the night of Jan. 18, a statement was made that more than 80 unfaithful employees of the Adams Express company in this city had been discovered in recent peculations amounting to a sum between \$2,000 and \$3,000. This allegation grew out of conversation between a reporter and Attorney Abraham Levy, who gave, as his best impression at that time, the numbers and amounts above stated. The information indicated that peculations was conducted systematically among employees of the express company; and this statement, Mr. Levy feels it is equally fair to himself to say, was not warranted by utterance of his at the time.

## MRS. KETCHAM SUE.

Her Former Attorney, D. C. Hanson, Thinks His Services Worth \$20,000.

CHICAGO, Jan. 25.—Mrs. Minnie Wallace Waltrip Ketcham, widow of the late well known club man, John B. Ketcham, has been sued by her former attorney, D. C. Hanson, for \$20,000 to which she alleges he is entitled as recompense for services. Hanson asserts he attended to all legal matters arising from the death of Mr. Ketcham, drew up the will in dispute at the present time and made all preparations for the hearing of the contest in behalf of Mrs. Ketcham.

## MRS. FAIRBANKS.

Wife of Indiana's Junior Senator Seriously Ill.

WASHINGTON, Jan. 25.—Mrs. Senator Charles W. Fairbanks of Indiana is lying very ill at her home in this city. Last Friday she complained of a recurrence of the effects of the grip, but her case was not considered serious until Tuesday, when she had a fainting spell, falling to the floor. Word was sent to the senator at the senate chamber, who hurried to her bedside. Later he telegraphed for Dr. Spink of Indianapolis, who was Mrs. Fairbanks' physician in that city. The doctor arrived yesterday and has been attending Mrs. Fairbanks as resting easily. The lady's sudden illness interferes with her social plans. She had arranged for a dinner in honor of ex-President and Mrs. Harrison, and had secured their acceptance of the invitation. The family physician, however, has notified the senator that the condition of his wife's health will not permit of her active participation in society events for some time.

It is thought that Mrs. Peters' son Charles, aged 12 years, perished, but there are reports that he was saved and taken into the country by relatives.

The loss was \$235,000; insurance, \$135,000.

## BECOMING WEARY.

Said That Certain Senators Are Anxious to Close Deliberate Investigation.

COLUMBUS, O., Jan. 26.—The senate committee investigating the alleged attempt to bribe Representative Otis in the recent senatorial election did not hold a session yesterday. The committee adjourned subject to the call of the chairman, and it is not settled positively when the committee will meet again. There is a probability, however, that the committee may meet tonight. Senators Finch and Long are said to be getting weary of the voluminous testimony bearing upon unimportant details and are anxious to bring out the alleged connecting links in the story and close up the investigation.

CHICAGO, Jan. 26.—January wheat sold at \$1 yesterday. The price was bid up 5 cents in as many minutes by brokers acting for the Leiter crowd, who, it was believed, took this method of advancing the price of May. January closed at 97½ cents, an advance of 2½ cents. May closed at 3½ cents advance, after many erratic fluctuations.

## Terrible Shooting Affray.

VIDALIA, La., Jan. 26.—On the Forest plantation five miles below here Charles Beard, Jr., white, aged 18, was shot through the stomach and fatally wounded by a negro. While lying mortally wounded Beard shot and killed his assailant and another negro. The trouble grew out of an assault upon Charles Beard, Sr., father of the boy.

## May Get a New Trial.

LONDON, Jan. 26.—The Paris correspondent of the Daily News is "convinced that the agitation will eventually lead to a new trial for Dreyfus."

## DESTRUCTIVE STORM

St. Louis Is Visited by a Terrific Gale.

## LOSS OF LIFE AND PROPERTY

Several Narrow Escapes—Buildings Unroofed and Telegraph Poles and Wires Broken—Belleville and East St. Louis Also Visited—Men Blown From a Tower in Chicago.

ST. LOUIS, Jan. 26.—A gale of wind that reached the highest velocity of any experienced here since May 27, 1896, when the destruction of life and property was so great, prevailed here yesterday. Its velocity was 66 miles an hour, 14 miles less than during the tornado. Two deaths, one fatal injury and several minor casualties were reported, as well as considerable destruction to property. The dead are:

ALBERT WYMEYER, aged 37, a carpenter, who was blown from the roof of the Shields school; he lived but 10 minutes after being taken to the city hospital.

THOMAS JOSEPH PETERSON, 4 years old, blown from the roof of a porch at 2300 Franklin avenue and killed.

Mrs. Sarah Lorin of 3810 Lacade avenue, spine crushed and she may die. Injury caused by the blowing down of a fence.

A terrific thunderstorm, accompanied by a heavy fall of hail and rain, struck the city and prevailed for an hour or more. The sky cleared, but it soon became cloudy again, the wind began to rise and was soon blowing at the rate of 63 miles an hour, but 17 miles less than the recorded velocity during the tornado of May, 1896. It was a straight blow from the southwest and the residents of the city, especially in the tornado stricken portion, were seized with consternation, expecting another visitation.

Soon reports began to come into the police stations from all parts of the city indicating that there had been considerable destruction of property. Swinging signs and window panes blew down and were broken, outhouses demolished and fences leveled, telegraph poles and wires broken and in some cases roofs were taken off.

A frame building on Twelfth street between Locust and Washington avenue was blown down, but no injuries have been reported. The east wall of the ruins of the Ravenwood distillery was blown down.

At Nineteenth and Market streets the roof of a 2-story building was blown down. There were several thrilling escapes, but so far as can be learned, no one was injured.

At the electric power house which supplies East St. Louis with light, the large smoke stack was blown down, carrying with it the main wires of the city circuits.

In Belleville, Ill., many large smokestacks and chimneys were blown down and there were numerous narrow escapes from death there and in East St. Louis. The damage along the river was comparatively slight as there were but few steamers in the harbor and these were safely tied to the shore.

## Blown Off a Tower.

CHICAGO, Jan. 26.—A blinding snow storm which raged all day yesterday did considerable damage in the city, made trouble for the streetcar companies and the railroads and caused the loss of one life. Carlos Munchy, a laborer, was repairing the top of a 90-foot tower at the plant of the Iron-ore Furnace company, when, owing to the wind, which was blowing at the rate of 60 miles an hour, he lost his hold and fell to the ground. He was instantly killed; nearly every bone in his body being broken.

## LUETGERT TRIAL.

Sudden Ending of the Cross Examination of Defendant.

CHICAGO, Jan. 26.—Adolph L. Luetgert has completed his personal testimony. He stepped down from the witness stand yesterday afternoon when State Attorney Deneen brought the cross examination to an abrupt close. The big defendant had anticipated another day under fire and the sharp "that's all" of the prosecutor surprised him. Details of Luetgert's life, his morals, motives and actions were entered into, but few of them had any direct bearings upon the actual disappearance of Mrs. Luetgert. Asked whether he had or not employed detectives to search for his wife Luetgert said that he had not and then, after some controversy between lawyers regarding the production in court of certain books which the state claimed would show dishonest transactions on the part of Luetgert the defendant was excused.

## ONE DOLLAR WHEAT.

Letter Crowd Sent the Chicago Market Up 5 Cents in As Many Minutes.

CHICAGO, Jan. 26.—January wheat sold at \$1 yesterday. The price was bid up 5 cents in as many minutes by brokers acting for the Leiter crowd, who, it was believed, took this method of advancing the price of May. ## BOGUS MASON.

George Fleming Makes a Confession of His Crooked Dealings.

TACOMA, Jan. 26.—George Fleming, convicted and sent to the state penitentiary at Walla Walla to serve two and a half years for obtaining money under false pretenses, has made a confession, which, if it were not corroborated by more than 100 letters from different Masonic lodges in the United States and other countries, would be received with incredulity. Fleming is a bogus Mason, yet he has been complimented by past grand masters on his knowledge of Masonry. He has lived for years upon money borrowed from Masons, the amounts varying from \$10 to several hundred, or, as he told ex-Sheriff Van Deventer, "according to the circumstances and the times."

"The amount of money thus obtained will probably reach \$30,000. He has traveled all over the world and never spent a cent for railroad or other transportation. He was known in Mississippi as Professor Wiley, in Kentucky as Alexander Craig, in Pennsylvania as William Ball, in Cincinnati and Chicago as Charles Wilson and in St. Louis as William Mays. In Paris he claims to have dined with the prince of Wales and Sir Dudley Ward. He borrowed \$150 from the prince on the strength of Masonry. In Madrid he worked Hannis Taylor for free transportation to the rock of Gibraltar by the way of Cadiz.

Seventh Precinct Republicans.

The republicans of the seventh precinct, Jackson township, will meet in mass convention tomorrow (Thursday) afternoon at 2 o'clock, at E. O. Kruger's shop on Brown street in the city of Seymour, to choose a committeeman in place of Uriah White who asks to be relieved.

W. E. KIMMEL, Tp. Chrm'n.

The members of the county central committee will meet at Brownstown Saturday to elect a chairman.

It is discouraging to some of the high salaried officers now occupying the court house to hear old time and influential democrats declare that a change would be a good thing for the party as well as the people.

SENATOR Teller shed tears in 1896 when the republican national convention overwhelming turned down his 16 to 1 proposition, but in the senate yesterday he lost his temper and talked real saucy to some of his opposing colleagues.

### "TAXPAYER" SHOULD REPORT HERE

Some-one signing himself "A Taxpayer" has written D. H. McAbee, the state factory inspector, that "in the factories, mills and other branches of business in the city of Seymour" a great many children under the age of 14 years are regularly employed. Truant Officer McCann says he has no knowledge of such employment though he has made careful inquiry, but if "Taxpayer," or any one else will report such cases, if there be any in Seymour, they will be given prompt attention. "Taxpayer" should reveal his identity and report what he knows here at home.

This is not an off year for the republicans as some of the Bryan democrats are trying to make themselves believe.

### THE annual meeting of the Indiana Republican Editorial Association will be held on Thursday evening and Friday of this week. An excellent program has been arranged.

JUDGE LEWIS E. MCCOMAS has been chosen by the Maryland legislature to succeed Arthur P. Gorman in the United States Senate. Thus is one of the leading democratic tricksters and shrewd politicians succeeded by a republican, a one, too whose ability has been tested.

The republicans of the Seventh precinct of Jackson township will find a call in this issue for them to meet tomorrow (Thursday) afternoon at 2 o'clock at E. O. Kruger's shop to select a committeeman in the place of Uriah White who asks to be relieved. They should respond promptly. A close and compact organization is what we want as soon as possible.

There is a report out that some very embarrassing differences have arisen between a coterie of local democratic bosses and a number of the rank and file of the party, some of whom want to hold office. The report is to the effect that the bosses want to dictate the nominations for city offices, and take several aspirants out of the race. This arrangement is satisfactory to only one candidate for each office and he is the one whose name is on the bosses' slate. The others are all dissatisfied and have been talking too much to suit the bosses. It is said that some real for sure 16 to 1 democrats have promised to make things lively for those who are "fixing things" to suit themselves. They must have a "test of strength" or else there is apt to be some democratic trouble right here at home.

### MAKING ARTIFICIAL ICE.

How the Pils are Constructed and Operated in Philadelphia.

Artificial cold or ice may be most readily produced by the evaporation of a more or less volatile liquid. In the first machines constructed this liquid was water. One-tenth of the amount of water used was converted into ice, but as it was necessary to maintain a vacuum in the apparatus its perfect working was a difficult problem. A more readily volatile liquid, therefore, had to be substituted, such as liquefied sulphurous acid and liquefied ammonia. Being gaseous at ordinary temperatures, they are very suitable substances for this purpose. The ammonia ice machine is the one in most general use—in fact, it finds exclusive application in this city. This liquefied ammonia is allowed to expand in coils of pipes which are placed in tanks filled with brine. The temperature of the brine is thus reduced to a point below the freezing point of water—that is, to 14-18 degrees F.

In this refrigerated brine are placed galvanized iron tanks having the shape of the large cakes of ice which one is accustomed to see in the wagons that pass through our city streets. After a period of 48-50 hours this can of water is converted into solid ice. The can is hoisted out of the brine, warmed with hot water, which allows the cake to slip upon a shoot that runs into the storage rooms. The gaseous ammonia in the pipes can be used over and over again, a large compression engine being a part of the plant, which reduces the expense of the process. From this description it should be plain that there can be no taint of ammonia to give a taste to the ice.

The plants usually employ distilled or artesian water, so that the ice is of the best quality. Whatever impurities the water contains are collected in the white streak found in the center of each cake. The pure water separates from the impure and freezes first. Even ten years ago the demand for ice was supplied from natural sources, the harvests from our own Pennsylvania rivers, which were stored every winter in great houses on the shores of the streams, being supplemented by shipments throughout the summer from Maine. There are now in Philadelphia 16 ice-making plants, some of which yield over 100 tons per day each, and the artificial product for several years has been a serious competitor of the natural article.—Manufacturer.

### CONFIDENCE SHAKEN

Logansport People Becoming Skeptical About Nickum's Light.

INSANE OVER HIS PENSION.

Pierman Wanted For Brutal Assault on an Aged Couple Near Veversburg. Captured—War Between Grocers and Department Stores at Danville—Blaze at Turner.

LOGANSPORT, Ind., Jan. 26.—The long deferred public exhibition of S. B. Nickum's perpetual light is indefinite, and the curious are simply waiting. Confidence in the Nickum light is sadly shaken, and nothing will restore it but a practical demonstration. The inventor continues to maintain the secrecy which, coupled with his remarkable claims, has given him worldwide notoriety.

### TRADE WAR.

Grocers and a Department Store Waging a Battle at Danville.

DANVILLE, Ind., Jan. 26.—A cut price war is on here in flour between Joseph Schwartz's department store and the grocers. Schwartz was recently in the clothing business and decided to open a department store. Last Saturday he had an opening in groceries and marked flour from 70 cents to 60 cents a sack for 25 pounds. The grocers made it 55 cents. Both sides continued to cut until now flour is selling for 33 cents, with indication of going still lower. Schwartz is threatening to put in a butcher shop. The fight is being watched with interest by those who favor and those opposed to department stores.

### PIERMAN RECAPTURED.

Wanted For a Brutal Assault on Enoch Thompson and Wife.

VEEVERSBURG, Ind., Jan. 26.—Samuel Pierman was arrested yesterday at Brazil on the charge of burglarizing the home of Enoch Thompson and wife, an old couple near here. It is alleged that Pierman and Alan Curtis went to the Thompson home and tortured the old couple into surrendering their money. They then locked them in a closet, after knocking down Mrs. Thompson with a blow in the face. Curtis was arrested at Danville, Ill., and Pierman was also arrested a few weeks ago while working in a mine, but gave the officers the slip.

The trestle is 90 feet high and 383 feet long.

### ONCE THEY WERE MEDIUMS.

Now They Exploit Their Sins by Tossing Balls of Blue Fire.

Close by the Northwestern tracks at Leavitt street is the home of the "juggling sisters." They were twin prestidigitators in their days of life, so runs the tradition, and now they toss balls of blue fire about as the juggler does eggs, cannon balls and the like. Their pet amusement is to stand on their heads and toss the balls as if they were standing aloft. The force of gravity seems to be reversed for their benefit, for they "toss" the balls of fire down, and the little flames "fall" up. All this is set down just as James MacCourtney, the oldest settler in the neighborhood, tells it. He said the other day:

"Them broad winds over there on the north side of the old building is the place where the sisters comes to show themselves. The year of the World's fair I counted up their performances, an they come every 56 days. The reason for that is somethin I could never guess, but some smart young chap here figured out that it was always in the dark of the moon. I've noticed since that there never was no moonlight when they got up there in the windys."

"What's the cause of their haunting the old place? Why, sir, the story's so old there can't no truth nor lie be made out on it. There's no man in these diggins' longer'n I be, an I ken the story only by hearsay, so to speak. I heard it from my granddaddy, an he said he heard it when he was a young man comin here. That mus' 'a' ben in the thirties. Onnyways he sed that the two sisters was perdiditators. It seems like they give a performance in the house, which was new then in course, an the pair of them agreed ter be locked up in a box that was to be sealed an fastened, an then they was to get out without breakin in the seals. Well, they was locked up, but they couldn't get out, an purty soon they found themselves so short of breath they couldn't holler loud enough to be heard. In course they was in a room away from the other people, so's the common folk couldn't see how the trick was turned. When they couldn't holler, they tried rappin, an the others only thought they was a-workin out of the box an so didn't pay attention. After an hour or so the other peoples got nervous an went in an opened the box, an there was the two sisters, cold dead. They buried 'em together in the box in the yard back of the house, an that's why they joggles the fire balls upside down like."—Chicago Chronicle.

### Why He Left the Stage.

There is in Philadelphia a man who abandoned the theatrical profession because he could not lift Fanny Davenport. He was a member of one of the local stock companies about 20 years ago, when Miss Davenport came to Philadelphia with one of the men of her company sick. She applied to the manager of the theater in which the young man referred to was employed for some one to take the sick man's place, and as the young actor was not in the cast of the play then running his services were loaned to Miss Davenport. He was cast for the part of Caius Lucius in "Cymbeline," and the business of the part required that he should take Miss Davenport in his arms and carry her off the stage. The lady weighed considerably more than he did, and when he attempted to pick her up he found that his strength was not equal to the task. His struggles caused the audience to laugh, and that spoiled a good scene. He was so humiliated that he left the profession after that engagement.—Philadelphia Inquirer.

### THE AMERICAN MONTHLY REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable," "is simply invaluable," "is a generous library in itself," "is a historical cyclopedia of the world," "the best means of aid for a busy man," "the best periodical of the kind we have ever had," "a triumph of editorial genius," "the world under a field-glass," etc., etc.

### Indorsed by All.

Not only the press but the pastors of the country as well speak of "The Old Homestead" in the highest terms. [It is one of the most refined and pleasing comedies ever written, dealing with life in all its phases in country and city. The library association deserves much credit in securing the right to produce this play. Much time and pains are being given to make it a success in every way. All the characters have been taken by persons capable of sustaining them in a creditable manner. Let this be the event of the year, fill the house to its utmost capacity and help the library along and at the same time enjoy a meritorious performance.]

### The Discovery of the Day.

Aug. J. Bogel, the leading druggist of Shreveport, La., says: "Dr. King's Discovery is the only that cures my cough, and it is the best seller I have." J. F. Campbell, merchant of Safford, Ariz., writes: "Dr. King's New Discovery is all that is claimed for it; it never fails, and is a sure cure for Consumption, Coughs and Colds. I cannot say enough for its merits. Dr. King's New Discovery for Consumption, Coughs and Colds is not an experiment. It has been tried for a quarter of a century and today stands at the head. It never disappoints. Free trial bottles at W. F. Peter's drug store."

### RAILROAD RUMBLINGS.

A large number of men came here last night to put in a long side track for the S. utern Indiana line from the depot west.

Frank Barkley, late of the B. & O. S. W., is now employed on the Southern Pacific with headquarters at Tucson, Arizona, and is doing well.

Edward and Everett Fraze, of the Alabama Great Southern, Birmingham, Ala., came here last night to visit their many friends.

Alex Toms went east on engine 231 last night and crashed into a large tree blown across the track two miles on and the pilot was knocked off. This was lucky as it saved No. 3 from running into the tree which would have resulted in serious damage.

Mrs. J. Watson, 1022 Arizona St. Philadelphia, Pa., says: "I think Dr. Bull's cough syrup is a splendid remedy I had to cough night and day and one bottle relieved me wonderfully."

### CHURCH NOTES.

Rev. J. L. Shroyer, of the Seymour circuit M. E. church began a protracted meeting at Cortland Monday night with large audiences and an increasing interest.

There will be a missionary conference at the Baptist church Sunday Feb 6. Rev. J. S. Boyden, of Kalamazoo, Mich., and Rev. E. G. Stucker, of Chicago will be present and conduct the meeting.

There was a large attendance at the Christian church last night. Interest is growing great and people are thinking seriously upon the great question, "What Shall I Do to be Saved?"

Elder Joseph Franklin went to Bedford yesterday but is expected to return today and continue the meetings at the Christian church over next Lord's day. His subject tonight will be "Faith as a Grain of Mustard Seed."

The interest in the revival services at the Methodist church is on the increase. Many testimonies were given last night and the power of Christ to save was manifest in many hearts. Come to night. Come to work for God. The salvation of many souls depend upon our efforts at this time.

### STORM NOTES.

Deafness Cannot be Cured  
By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by all druggists 75c. Hall's Family Pills are the best.

ONE OF TWO WAYS.  
The bladder was created for one pur-  
pose, namely, a receptacle for the urine,  
and as such it is not liable to any form  
of disease except by one of two ways.  
The first way is from imperfect action  
of the kidneys. The second way is from  
careless local treatment of other diseases.

CHIEF CAUSE.  
Unhealthy urine from unhealthy kid-  
neys is the chief cause of bladder trou-  
bles. So the womb, like the bladder,  
was created for one purpose, and if not  
doctored too much is not liable to  
weakness or disease, except in rare  
cases. It is situated back of and very  
close to the bladder, therefore any pain,  
disease or inconvenience manifested in  
the kidneys, back, bladder or urinary  
passage is often, by mistake, attributed  
to female weakness or womb trouble of  
some sort. The error is easily made and  
may be as easily avoided. To find  
out correctly, set your urine aside or  
twenty-four hours; sediment or settling  
indicates kidney or bladder trouble.  
The mild and the extraordinary effect  
of Dr. Kilmer's Swamp Root, the great  
kidney and bladder remedy is soon  
realized. If you need any medicine you  
should have the best. At druggists fifty  
cents and one dollar. You may have a  
sample bottle and pamphlet, both  
sent free by mail. Mention the  
REPUBLICAN and send your address to Dr.

trary. True, dangers lurk in the  
pathway of the Expectant Mother

## GREATEST OF COLONIZERS.

Much of the Earth Owe Its Settlement to  
the Finding of Gold.

It has been well said that gold is the  
greatest of colonizers, and this has proved  
especially true in the last half of the  
present century. To what land regions  
the footsteps of man were attracted in  
the earliest times by the discovery of  
gold we may not know, but within the  
memory of living men great regions of  
the earth's surface have owed their set-  
tlement and occupation solely to the  
finding by search or accident of a few  
shining particles in the earth.

California was a remote and outlying  
province of Mexico, inhabited by In-  
dians, gathered in missions or scattered  
abroad, and cattle herds and their de-  
pendents, visited by a few ships each  
year in search of a freight of hides,  
when the picking up of a few grains of  
gold in the banks of a mill race called  
the gold seekers from the four corners  
of the earth and transformed a wilder-  
ness into a populous empire.

Australia was a corner of the earth  
selected on account of its remoteness  
from their former home as a place of  
banishment for British criminals when  
the gleam of gold illuminated it and  
filled the distant harbors with sails and  
their shores with cities.

South Africa might have remained  
forever a grassy waste, the home of sav-  
ages contending with the Boers and the  
British for the possession of illimitable  
pastures, had not gold called the miner  
and those who follow him to build Jo-  
hannesburg.—Kansas City Times.

The Sea.

It is the sea which enables every-  
thing. Between the line and the sea there  
was but the ancient land, covered  
with prickly, tamarisks and  
mange colored brambles, with yellow and  
conspicuous bare there. At the line  
of the forebore the rugged rock  
line cut clear into a deep and sum-  
ber blue. It is also—blue as any grape on  
this cluster which hangs in the cooling  
breeze. The azure deepens, filling up a  
good half of the range of sight; the  
white sail of a fishing smack floats  
along, like a hollow shell; the eternal  
monotony of ocean is borne upon the  
ear. Draw near and see the leaping sil-  
ver foam.

Above this intense blue the sky is trans-  
parently, superbly pale, and the sun  
is hurrying to light their lamps. There  
is not a living soul, nor a plant, nor  
any sign of the hand of man. There  
might be a world, and facts dancing  
on the strand, as in the days when the  
world was young.—H. A. Taine in  
"Journeys Through France."

Rucker, and for delegates to district

Several of the young men of this  
place went out serenading Saturday  
night. When they came to the home  
of Jefferson Hogg singing "While We  
Were Marching Through Georgia," the  
old soldier came out with tears in his  
eyes and told the boys is reminded him  
of old times.

"I take pleasure in recommending  
Chamberlain's Cough, Croup and  
Diarrhoea Remedy to all who suffer  
from pains in the stomach," says Mr.  
Milt McKinley, editor of the Rowson  
(Ohio) Herald. "Until I used this  
remedy it was, at times, impossible for  
me to be in my office, owing to attacks  
lasting from one to two days. By tak-  
ing it as soon as the first symptoms of  
the attack are felt, I no longer suffer  
this unpleasant sickness." For sale by
